rProcess Journey

2010 — Establishment of the Organization

2011 — Secured the First International Project

2015 — Initiated a Comprehensive Market Research Project

2017 — Expanded into Artificial Intelligence (AI) Initiatives

2019 — Initiated Advanced Driver Assistance Systems (ADAS) projects

2020 — Launched the Engineering Division

2022 — Achieved a Milestone of 1,000+ Employees

2023 — Recipient of the Economic Times MSME Award

2024 — Platinum-Level Recognition in RBA Audit

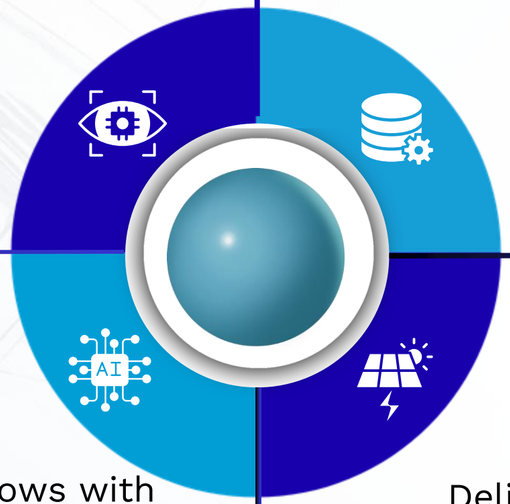

2025 — Achieved a Milestone of 2,000+ Employees

Core Services

rProcess
Works. For You.

Delivering high-precision data annotations across ADAS, e-commerce, waste management, sports, retail and beyond.

Driving collaborative platform projects with integrated tools, workforce, and quality frameworks for efficient annotation delivery.

rAnnotate

rSolutions

rDigiOps

rDesigns

Streamlining workflows with Gen AI/NLP and automation to enhance content, sentiment insights, and data management at scale.

Delivering state-of-the-art engineering design solutions for solar PV, civil, and product projects

ADAS

rProcess provides high-quality annotations across multiple data types to advance ADAS with segmentation, detection, classification, lane, and object linking

Product Labeling

Accurate retail product labeling to enhance analytics, shelf monitoring, and AI-driven inventory management

Waste Management

Waste type identification and sorting annotations to support intelligent recycling solutions

E-Commerce

Product image annotation, categorization, and duplicate product identification to enhance search accuracy and improve recommendation systems

Sports

Provides event tracking, player movement analysis, and performance insights for soccer, ice hockey, cricket, and American football

EDS - Solar

rProcess provide code-compliant PV permit plan design services for residential, commercial, and utility-scale solar projects

rAnnotate

rProcess
Works. For You.

rAnnotate provides precision-labeled datasets that optimize machine learning performance. Our expertise spans segmentation, object detection, classification, and lane marking, supporting industries such as ADAS, autonomous vehicles, retail analytics, and waste management.

Services offered

Image & Video Annotation

Impact: Accelerating AI model training for autonomous systems

LiDAR & Sensor Fusion Annotation

Impact: Enabling next-gen autonomous vehicles and smart farming

RADAR & Geospatial Annotation

Impact: Supporting precision agriculture and smart city initiatives

UNLABELED STREET ENVIRONMENT

SEMANTIC SCENE SEGMENTATION

rDigiOps

rProcess
Works. For You.

rDigiOps delivers comprehensive digital content operations, integrating AI automation with expert validation to manage, enrich, and protect data across industries. We convert unstructured content into structured, actionable intelligence, enabling smarter decisions and scalable digital transformation.

Services offered

Content Management Services
Clean and organize product data for consistency across platforms and improved digital shelf performance.

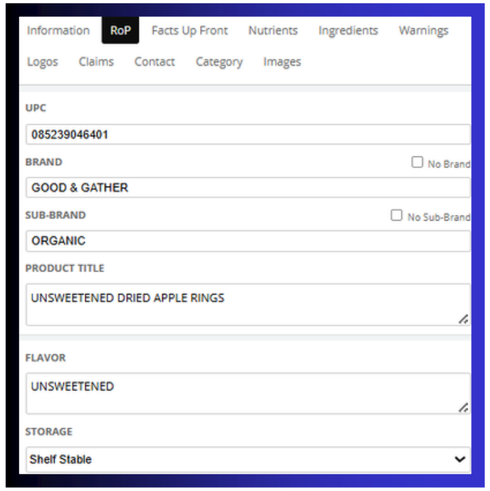

FMCG – Product Labeling
Multilingual product labels using AI and expert validation to meet compliance and scale efficiently

Content Moderation
Detect and filter harmful content to maintain safe, compliant, and engaging digital environments.

Generative AI & NLP Data Services
Curate high-quality datasets to power advanced language and vision models for scalable AI innovation

rSolutions

rProcess
Works. For You.

rSolutions empowers enterprises to move beyond services, into strategic transformation. By integrating partner platforms with our delivery excellence, we create adaptive, AI-enabled ecosystems that optimize cost, performance, and innovation

AI-Driven Efficiency | Platform Integration | Business Transformation | Operational Agility

Services offered

Data Discovery & Configuration

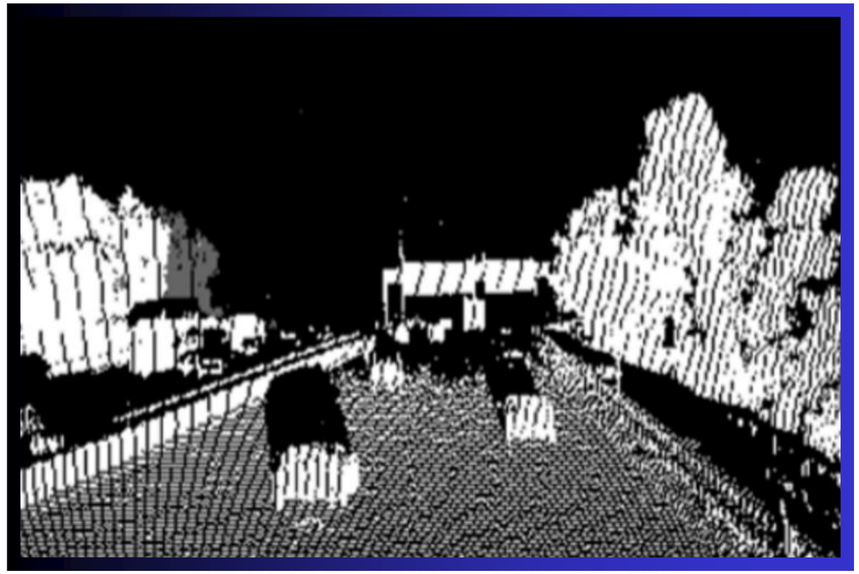

Understand, organize, and prepare data for operational use

Platform Enablement

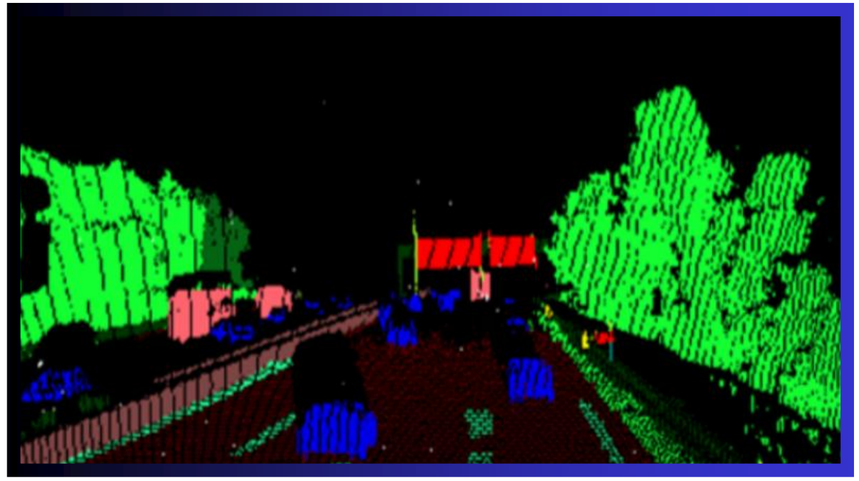

Scalable infrastructure to support data workflows

Annotation & Delivery

Precise labeling and export structured datasets ready for AI integration

UNPROCESSED LIDAR POINT CLOUD

ANNOTATED LIDAR SCENE SEGMENTATION

rDesigns

rProcess
Works. For You.

Precision-driven design and drafting solutions across solar PV, civil infrastructure, and product engineering backed by industry-standard tools and rapid delivery.

Services offered

Solar Photovoltaic Design Services

Service: Residential, Commercial, Utility-Scale

Civil Drafting & Design Services

Service: Engineering Drafting, Architectural Modelling & Drafting, Mechanical Electrical Plumbing (MEP), Building Information Modelling (BIM)

Product Design Services

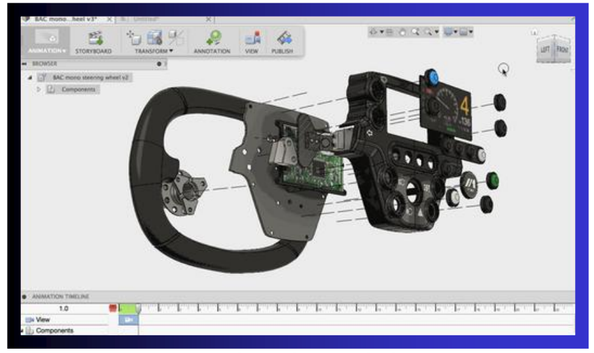

Service: Conceptual Design, Detailed Design, Simulation, Production Drawing, DFM & DFA

Why Choose rProcess?

rProcess
Works. For You.

Hybrid Intelligence for Precision

Blending advanced technology with skilled human oversight to ensure precision and quality

Performance & Pricing Advantage

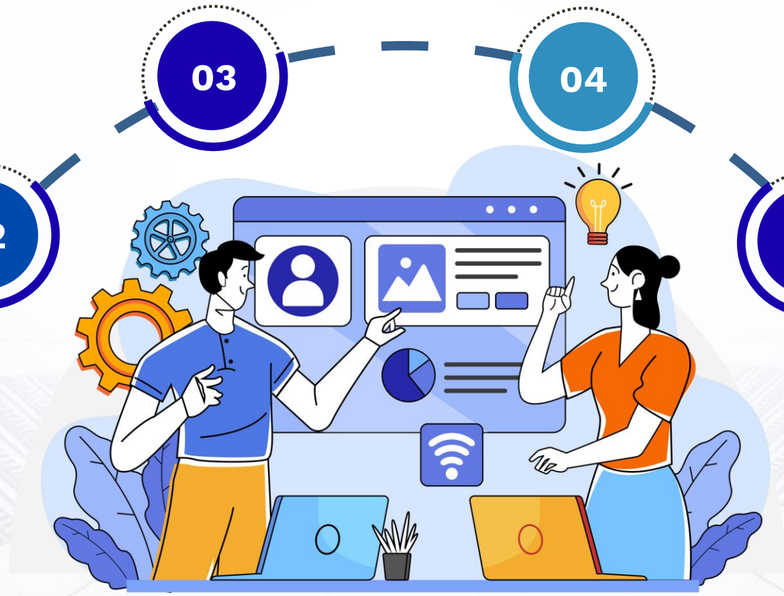

Competitive rates with strong adherence to SLAs

Scalable Teams

Agile workforce trained in standard operating procedures for all verticals

Ethical Talent Model

Impact sourcing ensures quality output through responsible hiring

Marketplace Expertise

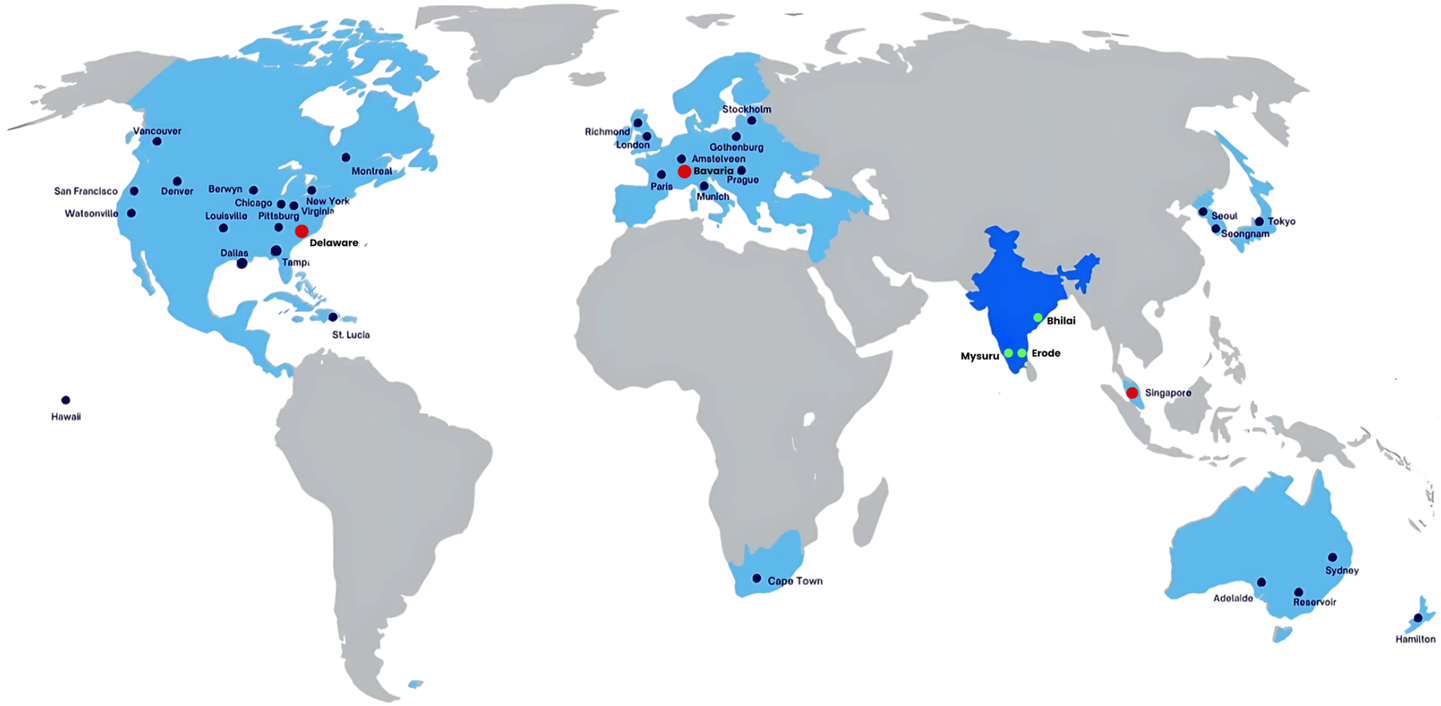

Deep domain knowledge across platforms in all domains.

Global Delivery with Local Expertise

Delivering scalable solutions worldwide, customized to meet regional and cultural nuances

Global Impact
